## **MONETARY HELP TO THE STUDENTS**

(Academic Year: 2022-23)

---

### **1. Objective of the Practice:**

Help the students not to get deprived of higher education due to financial constraints

### **2. Need Addressed and the Context:**

Our college is situated in rural area. Many of our students come from socially and financially weaker sections of the society. Some of them find it difficult to pursue higher education due to the financial constraints. Such students are helped by the institution so that they are not deprived of higher education.

### **3. The Practice:**

Every year poor and needy students are helped financially by the institution so that they are not denied the right to higher education. Two poor and needy students were given the financial help of Rs. 2700/- during the academic year 2022-23. Rs. 5500/ is given to the meritorious students in the form of prize money by our faculty members every year. Besides, the poor and needy students are given incognito financial help by the members of the faculty. Moreover, financial help is given in the form of prize money to the students for excelling in various curricular, co-curricular activities by the other stakeholders.

### **4. Evidence of Success:**

Due to this practice many poor students are getting higher education who otherwise might not have been able to pursue higher education. Many students have been given financial help by the institution so far. Sometimes even our alumni are given help to pursue PG degrees.

### **5. Resources:**

The institution has made the provision of Poor Students' Aid Fund for the welfare of the students. The poor and needy students are given economic assistance from this fund by the institution. Our alumni and other stakeholders, too, help us in this cause. Our faculty members also give incognito financial help to the poor students. These are the major sources.
